

You are required to pay the contribution of **€290** for the training that we supply prior to. Without the payment the intern cannot participate in the training and consequently not proceed with the internship.

The training is on tools for photo/video/web edition and also on different subjects: SEO, community management, blogging, marketing on line and domaining.

The interns willing to work in web development department will be supplied with domain, hosting and website template to work on exiting/new websites.

*This training includes: video tutorials, pdf manuals, resources, training at the offices, access to our e-learning platform created specifically for the interns of Dpointgroup and personalized support by Dpointgroup internship coordinator. All the material is custom made by Dpointgroup staff.*

More Details:

- An internship usually last from 2 to 5 months however in our company the student chooses the duration and the amount of hours per week that he/she is willing to work.
- The intern can make his own timetable which has to be approved by the company mentor.
- It's not necessary to speak Spanish as we are a team of internationals.
- The company offers the opportunity to keep working on line from your country (earning commission on your sales) after the internship.
- The internship is led by your future Mentor and has a well build structure.
